

# *Who Else Wants To Know The Secret Formula For Building An Internet Business That Can Easily Generate Over £40,000 A Month?*

Dear Friend,

You're just about to discover how you can easily make at least **£500,000 a year** by using your computer, a telephone and by simply following a tried and tested formula.

Now before you start thinking... Oh No! Not more hype... it's just not possible...

...I'm going to let you into a little secret. It has already been done! And it's being done right now while you are reading this report.

Right now, there are some very ordinary people sprinkled all over the UK, who are quietly banking small fortunes for doing some relatively simple work on the Internet. If you knew what they know... you would be doing the same... right?

Well, you're just about to find out what it is that they know, but first...

If you've been looking for a way to make money online, I don't blame you at all for being just a little bit sceptical about all the crazy wild claims like, **"How to Make Millions Working Just 30 minutes a Day"**. And all the other stupid "Get Rich Quick" stuff that is spurting out all over the Internet.

Phew! Give us a break!

But... you cannot ignore the fact that there **are** people making shed loads of money online, and they are just ordinary, everyday people like you and me.

Now, I must admit that I didn't know anything about these secretive online marketers until recently, and when I found out exactly what they were doing... I was shocked... and so will you be.

If you are absolutely serious about wanting to become very, very rich, then pour yourself a drink or make yourself a cup of tea or coffee and settle down into your favourite armchair. Make sure you won't be disturbed for at least the next 15 minutes and be prepared to read every single word of this report very carefully. Your future wealth and prosperity **will** absolutely, positively depend on it.

Now, just to be sure we're talking the same language, do you want to...

- **Give up your current job and work for yourself?**
- **Work the hours that best suit you?**
- **Work from home on your PC or laptop?**
- **Take time off when you want to?**
- **Earn yourself a six-figure income?**

Okay, it's time to get serious...

Somewhere... right this minute, someone just like you is making **at least £40,000** every single month. They are living the lifestyle that many other people constantly dream about, strive for, fantasise over but never, ever even come close to getting. So just how are they doing it?

Well, you may have heard it said that people don't make money... systems do. And, it's absolutely true. It's been proven by Internet marketers from all over the world, that if you use the right **formula**, you can set up a **system** that will work for you **24/7... all on complete autopilot.**

You see, one person working on their own in any type of business other than an Internet business would never be able to generate enough cash because there's only so much that one person can physically do in any one day.

**What you need is leverage!**

Thanks to the convenience of your computer and the Internet, when you have a **system** set up correctly, it has the power to continually generate money on a regular basis through leverage.

What that means is your system is set up in such a way that it manipulates others into doing the majority of the work for you, and you benefit the most. It's like having an army of workers all willing to contribute to your wealth.

### **And it gets better...**

A system, based on a proven formula will produce an income stream. And there is no doubt that there are many people who would be more than happy if they could just do this. Well, wouldn't you like an automatic system that repeatedly pumped say 3 or 4 grand into your bank account every month?

Yeah... who wouldn't... but, you wouldn't be rich would you?

Well, what if you could just set up more systems so you have **multiple streams of income**?

Let's say 10 streams of income, each producing 4 grand a month. Now that's how you become very, very rich... and very quickly too. Well, that's **exactly** what successful Internet marketers do.

## ***Is Someone is Getting Your Share of the Billions Being Spent Online?***

The Internet makes it possible for you to set up numerous businesses or income streams within a few days. And what's more, you don't need any business premises, you don't need any staff and you don't even need to have your own products to sell. Plus, you have virtually no overheads whatsoever, and the only equipment you will ever need is a computer with Internet access, preferably broadband, and a telephone.

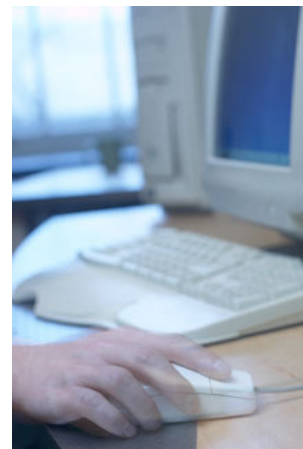

Okay... so you also need to know **how** to get set up... right?

Well, before I tell you how easy it is to start making money on the Internet 24/7, just consider these facts...

**The Internet generated more than \$170 billion in sales in 2006.**

(\$dollars are the currency of the Internet)

**And... 2 billion people are expected to be online by 2010.**

Are people spending money online? Oh Yes! And remember! The Internet caters for a **worldwide market**.

Shopping on a computer from home has many advantages, not least... there's no travelling into the city centre on crowded and dirty public transport, there's no expensive car parking or wardens to worry about, there are no hustling and bustling crowds to contend with, and it's almost always much cheaper to buy online.

Companies can afford to sell their goods cheaper on the Internet because they have fewer overheads. Many operate straight out of a warehouse, but they will have a nice professional looking website... taking orders 24/7.

So, with all this online activity and big spending going on, is it any wonder that many people are becoming incredibly rich by running an Internet based business?

The Internet is the best thing that ever happened because it has allowed tens of thousands of people just like you, to earn a full-time living working just part-time hours, from home on their computers.

So, what could this mean for you?

At the very least it means never having to set the alarm clock and never having to get up out of your warm and comfortable bed, until you feel like it.

Can you imagine working just a couple of hours a day when you feel like it? Then you take the rest of the day off to do as you please. Just imagine not having anyone telling you what to do. Being your own boss means you wouldn't have to answer to anyone.

**Also, being your own boss means you can pay yourself a big fat salary.**

Now, just imagine being able to take the day off when you feel like it. Or you could take a week off, or even a month off. What's more, your business would still be making money while you're on holiday... because your business can be set up to run on complete autopilot.

Can you imagine having enough ready-cash in your bank account to be able to pay off your mortgage or buy the house of your dreams out right? You could live anywhere in the country or even anywhere in the world. And you could have any car you wanted... or you could even have a fleet of cars.

Your own Internet business holds the key to all the wealth you have ever wanted. Whether it's **£4,000 a month or £40,000 a month...** there really is no limit to the amount of money you can make.

Now, before you start thinking that you don't know the first thing about business or the Internet, websites and selling products online, you should know that not very long ago... neither did anyone else. Many people still know very little about the inner workings of the Internet, but it hasn't stopped them from making **huge fortunes** online.

The amazing thing is, the Internet as we now know it, hasn't been around for very long, and many people are still learning about all the various ways to make money from it. E-commerce websites have only been around for about 10 years and it has only been in the last 5 years that some people have begun to make serious amounts of money from their Internet enterprises.

### **We're talking Millions!**

So, the ways to do business online have now become the tried, tested and proven **formulas...**

**There's no other business that gets more exciting and profitable than an Internet business!**

And what's more, you can operate your Internet business from absolutely anywhere. With just a laptop computer and Internet connection you could work from just about any location in the world. What other business allows you this amount of freedom and flexibility?

And while we're on the subject of freedom...

**It's important to remember that money can buy you the freedom to live your life exactly as you please.**

Now, let me ask you something... just who do you know who has made millions, and doesn't have a business or business empire? Note that I said **made** millions, as in **earned** and not inherited...

...Okay, time's up... have you thought of anyone?

No... because there isn't anyone who has made a fortune without getting involved in some kind of business. It could be a traditional kind of business like buying and selling goods or providing services, or it could be the music business, the acting business, the antique business, sport or any other kind of business where you are in **control of your own destiny**.

Reality check! If you want to be rich it's no good just thinking about it or even dreaming about it and there's no point whatsoever in wishing for it either. You have got to take action and positively do something about it!

## ***What Kind of Business is Going to Make YOU the Most Money?***

So, we know that setting up and running your own business is the quickest and most likely way for you to become very rich. But, it doesn't have to be in the traditional sense. Because of the Internet, you don't need to rent or buy business premises and you don't need to take on any staff.

**An Internet business can be set up in a spare room and can easily be run in your spare time. What's more, your marketing costs can be as little as a few pounds a week!**

That's right! You can set up and run your Internet business part-time. Then when you're making a few thousand pounds a month, you can dedicate more time to it and make even more money. A lot more money...

**£40,000 a month is BIG money...**

Yes, we're talking about serious amounts of money... and now you're going to find out how you can get your hands on it!

If you've always wanted to know how you can get seriously rich... you've just found out what you must do. Now, all you need to know is **how** to get started... **and here's how...**

If you look around the Internet for ways to make money, you'll find that there are hundreds of so-called Internet business opportunities out there and it really is getting to be a bit of a nightmare trying to figure out which are genuine.

If you have already handed over your hard-earned cash for some "Amazingly Successful System" or "Mega-Wealth Building Programme", and found that it didn't work, you are certainly not alone. Just about every man and his dog have done the same as you, but all is not lost...

Although you might learn a few tips and tricks from tutorials, ebooks and audio recordings you buy on the Internet, the truth is you will never learn about **exactly** what you need and what you have to do to make real money.

Whether it's intentional or not, these so-called "business opportunities" never explain all the facts about what you need to know to get started. There will always be some vital information missing...

...and isn't it really annoying when the author of some Internet marketing ebook assumes you already know what they are talking about?

Pay per click advertising? Autoresponders? Email marketing? Squeeze pages? Affiliate programs??? Huh what???

Look, it doesn't really matter whether you know about how these things work... just know that they do.

What's more important is, anyone who wants to know how to make real money from the Internet, only needs to know and understand the secrets of successful marketing, and how to apply these cash generating methods to their own businesses.

And you just won't find that kind of information in some cheap ebook or audio recording.

The only way to find out what you really need to do to generate huge amounts of money is to watch and listen to someone who has done it already... and is still doing it right now.

Imagine if you had a highly talented, super-rich Internet marketing expert sitting next to you in your living room, showing you step by step how and what to do to make vast amounts of money online... do you think you could simply follow his advice?

Do you think if you copied his tried and tested formula you could become rich yourself?

**Yes... absolutely!**

And... do you think that someone who has made millions from their Internet business knows absolutely everything about building websites, creating graphics, writing sales copy and everything else about the Internet?

**No... absolutely not!**

Do you think they would know everything about all the technical stuff like uploading web page files, creating links to downloadable products and setting up payment processing and shopping carts?

**Nope... absolutely no way!**

They just get someone else to do all that stuff for them. All they concentrate on is... **MARKETING!!!**

When you start an Internet business you only need to know what has to be done. You don't have to do everything yourself. You can easily get other people to do all the technical stuff for you.

**You just concentrate on becoming a successful Internet marketer...**

**...because that's the business that makes most money and that's the business you will be in.**

**That's right! Regardless of what you will be selling... you will be in the Internet marketing business.**

It has been proven time and time again that well planned marketing strategies make money. It's important to remember that it doesn't matter whether you have the best products or service in the world, you simply won't make money if you don't fully understand and apply the secret formula for successful marketing.

And remember! You won't find this information in any ebook.

**The only things you need to know about, are those that are going to make you the most money.**

**Okay, now here's the deal...**

I'm the MD of a UK marketing company and my business depends on sourcing money-making opportunities that are **guaranteed** to work. I track down specialist training and coaching videos, which feature real millionaire marketing experts from all over the world.

You know what's funny? Mention eBay to anyone and they think they know all about it. Well, how many people do you know that make millions from eBay? I can tell you right now, there are probably less than a dozen in the whole world, and one of them is Adam Ginsberg.

This bonus is a stand alone product in its own right and if you don't know anything about eBay, then be prepared for an absolute shock.

This is a workshop in which Adam explains everything from getting started on eBay to out-performing all others in any category. Adam has sold more than £10 million pounds worth of products on ebay in 5 years, so he certainly knows what he's talking about.

Adam takes you step by step through the whole process of creating an ebay listing using an ebay template software program, which you can buy, or you can even get one for free. He shows you how to turn ugly auction listings into highly professional presentations.

Adam will show you how to get ahead of 95% of all other eBay sellers by using his keyword rich listing techniques.

Hardly anyone else knows about this process, so you can be one of the first.

## FREE BONUS

### *"The Secrets of an eBay Millionaire - DVD2"*

Okay, well there's so much you should know about this phenomenally successful auction site that it wouldn't all fit on one DVD.

In this video you'll learn how to make money from other people's mistakes. Their spelling mistakes, their poor descriptions and their lack of professionalism is an opportunity for you to make money.

Did you know that you could buy a product on ebay for a few pounds, re-list it using the information Adam gives you and make 100% profit?

You'll learn how to make your listings dynamic by adding video and slide shows, this is something hardly anyone else does because they don't know how to. But you will know...

Plus... Adam explains how you can legally put a link to your website on eBay and take the ebay buyers right off the auction site and get them to buy your products. This information alone is priceless!

These 2 DVDs show you a way of making money online without a website, without a product and with very little previous knowledge. An auction listing can cost pennies and you don't even have to pay this upfront.

Even if eBay isn't your thing, what you will learn is very valuable and could lead you into areas of marketing that have not yet been explored!

This double DVD set is valued at £97 but it's yours absolutely free when you order ***"The Bacak Formula to Riches"***

That's all my marketing license will allow. That's just 100 copies for the whole of the UK, and of course I will be keeping one copy back for myself... so that means I only have 99 available
